I am in love with the memory of you  
so many years I won't let you go  
its so obsessive of me regressive of me  
but I need you right now like the summer rain

if not for you then who will I bleed for  
so many years to open up that door  
its so obsessive of me regressive of me  
when I need you right now like the summer rain

some say the truth is so cold baby  
some say the truth is so cold baby  
but I need you right now like the summer rain

if not for you then who will I bleed for  
oh first love how breaks your dawn  
its so obsessive of me regressive of me  
when I need you right now like the summer rain

some say the truth is so cold baby  
some say the truth is so cold baby  
but I need you right now like the summer rain  
I need you right now like the summer rain
