I thought about you
Your words were running through my mind
I should have run away
I thought about me
I must have been deceived to think
It was okay with you

How many times do you have to see me here
How many times before I finally learn

I don't know how to say I'm sorry again
Without making it sound like every other time I failed
you
I don't know how to say I mean it this time
Without making it sound like every other time
Will you still forgive me?

I don't know what to say
There's so much in the way
I know that things can't be the same
All that I know is if I am to go on
It has to be with you

How many times do you have to see me here
How many times before I finally learn

I don't know how to say I'm sorry again
Without making it sound like every other time I failed
you
I don't know how to say I mean it this time
Without making it sound like every other time
Will you still forgive me?

I don't want to say I'm sorry again
Without making up my mind to make a night to day
change
I don't want to say I love you again
Without giving you every part of me
Will you please forgive me?
