Early morning, she's not sleeping
Dawnlight breaks the bitter night
Kiss goodbye and now I'm leaving
Don't cry baby it's alright

Wait, now
There's always tomorrow
Spring turns into the summertime
Wait, now
It won't be much longer
Every day our love grows stronger

Late at night I long to touch her
Like the stars caress the sky
Very soon we'll be together
Oh my baby don't you cry

Wait, now
There's always tomorrow
Spring turns into the summertime
Wait, now
It won't be much longer
Every day our love grows stronger

La, la la, la la, la la, la la, la la, la la
La, la la, la la, la la, la la, la la, la la
La, la la, la la, la la, la la, la la, la la
La la, la la, ohhh...

Wait, now
There's always tomorrow
Spring turns into the summertime
Wait, now
It won't be much longer
Every day our love grows stronger

Oh oh oh, oh, ohhhh...
