Falling down, the light hits the ground
Ya see what's going down, ya run away and hide
Over there, a lock of her hair
Remember how you cared, remember how she cried

Run to the sea, roll down the window and sigh
Inside there's nothing left to fear, in all that you denied
Come follow me

Falling down, it's all over town
Ya try to play it down, but she took you for a ride
Running scared, look everywhere
Whispers in the air, that it's you who lied

Run to the sea, roll down the window and sigh
Inside there's nothing left to fear, in all that you denied
Come follow me

Falling down, and I hit the ground
Looking kinda down, yeah you hurt your pride
By the stairs, a casual affair
More than you dared, now was it worth a try?

Run to the sea, roll down the window and sigh
Inside there's nothing left to fear, in all that you denied
Come follow me
