Hands on the wheel  
All is straight ahead  
Left behind  
Second guessing all that I once said  
I once said  
I once said

My spirit is bent and there's blood on my hands  
The more I'm down, the less I understand  
Once so found, now so lost  
I ask no questions, it's just one more bridge to cross

All is black and white  
Wouldn't change even if I could  
I'll take what I'm handed  
Whether it's damned or if it's good  
If it's good  
If it's good

My spirit is bent and there's blood on my hands  
The more I'm down, the less I understand  
Once so found, now so lost  
I ask no questions, it's just one more bridge to cross

My spirit is bent and there's blood on my hands  
The more I'm down, the less I understand  
Once so found, now so lost  
I ask no questions, it's just one more bridge to cross  
I ask no questions, it's just one more bridge to cross
