God I woke up early this morning
And as I looked around
My world be crumblin'round
What I saw
What I couldn't believe
Who are you ?
What might I be ?
Things be a going on
Going on Babe

Stare at the sun
1 means 3
At the helm of sanity
If you'd look now babe, mama what you just might find
But you're too far gone
Now you're just losin' your mind

Wanting just to get away
One more fix you'll be o.k.
Oh The things ya do
Well I try and try to talk you down
You're so damn high, you can't hear a sound
Yeah Yeah Yeah Oh the things you do

Once you start
Just can't stop
Start to shake mama
Don't you fall apart
Engine's keep on burnin'on runin' out of time
You're too far gone
Now you're just losin' your mind

Oh Yeah
Pass through time
Without a move
You're the one that's being used
If you'd look
You just might find
But you're too far gone
Now you're just losin' your mind
