Living, fighting, obsessing
Just as long as I can share it all with you
Yesterday, today, tomorrow, come rain, come shine
Hell and back, the beginning in between till' the end of
time

[CHORUS]

All that shines turns to rust
All that stands in time turns to dust

As above, so below
But you ain't no fool and honey, I'm damn sure that you
know
Yesterday, today, tomorrow, come rain, come shine
Hell and back, the beginning in between till' the end of
time

All that shines turns to rust
All that stands in time turns to rust
