Don't hold me to my word
it's not something you should do
and everything you heard
isn't strictly true
don't hold me to my word
nothing i say is ever true
everyone lies but no one really means to
nothing i sai is ever true
red is green and green is blue
i got no friends to value
there is nothing good to say
speak right now
if you have something good to say
nothing i say is ever true everyone lies but no one
really means to
nothing i sai is ever true
red is green and green is blue
