GO!

Stick 'em up kid, now we're gonna have some fun

So, this is your day in the sun

What, makes ya think you had a choice

What, made ya think this was your voice

So, shut the fuck up and listen

Don't make a move without my permission

I just wanna save you from this boredom

I just wanna save you from BOREDOM

[Chorus]

I can't see all the things you want me to see

They are not me

I can't be everything you want me to be

Why can't you see.

[End Chorus]

Here come the curve kid so don't even swing

One day you will see that this is my thing

What made you think that you could decide?

What made you think that this was your ride?

So, shut the fuck up and listen

Don't make a move without my permission

I just wanna save you from this boredom

I just wanna save you from BOREDOM

[Chorus]

Here comes the end of your streak *[x6]*

SLAM! SLAM! Here comes the end

oh DAMN!

Try to understand that this is not what I need

Touching my stomach? ??

I wanna be what ??

Don't wanna live with you or anybody else

I just need some time ??

Step outside but your eyes,

they make me go blind.

What did you think I would find?

Nothing but you through and through

Don't make the mistake, I AM NOT YOU!
