Ladies and gentlemen, welcome to the show  
We want it all, we want it now, we wanted you to know  
So keep your hands and legs inside the ride and take it  
slow  
It's bullshit by design, we're about to blow your mind

I ain't no Steve McQueen  
I'm like a dead pop star in a magazine  
I'm really one last loss in quarantine  
With pro tools gutting up the hit machine

So come and take more, take more  
You can't help us out, no  
Now escape more, escape more  
You can't help us out, no

And break more, break more  
You can't help us out  
We play hard out on the asphalt  
Don't think you're cut out for this, go

Save me from myself  
This ain't a test, it's state of emergency  
'Cause I can't stop myself, I'm trying my best  
Tell me what else could go wrong?

I dream like hollow queen  
I got a knife in my back and a song to scream  
I watch the walls cave in, inhaling gasoline  
It's like that in the middle of this party scene

So come and take more, take more  
You can't take us out, no  
Now escape more, escape more  
You can't take us out, no

And break more, break more  
You can't take us out  
We play hard out on the asphalt  
Don't think you're cut out for this, go

Save me from myself

This ain't a test, it's state of emergency  
'Cause I can't stop myself, I'm trying my best  
But tell me what else could go wrong

This is some good shit, where'd you get it?  
You're such a fucking hypocrite, it's so appropriate  
I'm feeling so delinquent and all degenerate  
This is some good shit, man where'd you get it?

I'm tellin' you another store was open  
We all went crawling along the way to buy it  
But can't be buyin' it

Save me from myself  
This ain't a test, it's state of emergency  
'Cause I can't stop myself, I'm trying my best  
Tell me what else could go wrong

Save me from myself  
This ain't a test, it's a state of emergency  
'Cause I can't stop myself, I'm trying my best  
Tell me what else could go wrong

Thanks for coming to the show  
[Incomprehensible] get on the floor  
It's bullshit by design  
Straight out, just lose your mind
