On track, on track
Never look back
When bad times seem to distract
You got to make your way, don't you know that

Don't wait, don't wait
Till it's too late
Got to let the bad times fall to illuminate, right

'Cause I can always tell when you're falling
I can hear you calling
I can see it in your eyes when you're stalling
But after all, you know that I'll be around
To pick you up when you're down

You never gave yourself a rhyme or reason
I know some days are too hard to bear
And if you need a hand, I'm standin' there
You're the one that gives me inspiration
Change the way I see every day
I want to make you feel the same

Don't say, don't say
That there's no way
Every bruise heals someday
You got knocked down and that's okay

Come on, it's on
Get a move on
It's about what you got to do
Not the things that you've done

'Cause I can always tell when you're falling
I can hear you calling
I can see it in your eyes when you're stalling
But after all, you know that I'll be around
To pick you up when you're down

You never gave yourself a rhyme or reason
I know some days are too hard to bear
And if you need a hand, I'm standin' there
'Cause you're the one that gives me inspiration

Change the way I see every day
I want to make you feel the same

'Cause I always knew that you'd move on
And I always knew that you'd be strong
And I always knew that you'd move on
Can you feel it, can you feel it

Just another lie, just another reason why
You don't trust it, confidence is busted
Running, running, running but you're rolling on fumes
And if you need a hand, understand that we can get
through

'Cause I can always tell when you're falling
I can hear you calling
I can see it in your eyes when you're stalling
But after all, you know that I'll be around
To pick you up, pick you up when you're down

You never gave yourself a rhyme or reason
I know some days are too hard to bear
And if you need a hand, I'm standin' there
You're the one that gives me inspiration
Change the way I see every day
I want to make you feel the same

'Cause I always knew that you'd move on
And I always knew that you'd be strong
And I always knew that you'd move on
Can you feel it, can you feel it
