[Intro: Styles]

Donell Jones, Holiday Styles, yeah, you ready for this  
I hope so, listen to my boy blow, Untouchable baby...  
No game I just kick it basic  
I'm Holiday Styles and every pocket in my pants got big  
faces  
Yeah I got twin bulks  
When I tell you to put me down girl I ain't talkin about a  
insult  
You should just hold me down  
Light my blunts, count my money, load my rounds  
Drive my V's, I'm locked down hide my keys  
Need a chick that'll ride with me, what

[Chorus: Donell Jones]

If I lace you would you lace me back  
If a blaze you would you blaze me back  
Spendin big faces on the things you like  
When you gonna put me down

[Verse 1: Donell Jones]

First time I saw you I was breatheless  
Lookin flawless fifty on a necklace  
And I had to, add you to my guestlist  
Couldn't let you pass I had to put it down  
We sipped and kicked a little convo  
We start to head back to the condo  
And I know what we both came here for  
Let me know what your feelin now  
Do you wanna open show me your love  
Stop playin around put me down  
Stop holdin back you gotta react, why your gonna hold  
me down  
Your perkin put the work in, always flirtin got me hurtin  
And you know I don't deserve this girl  
Why your gonna hold me down

[Chorus: Donell Jones]

If I lace you would you lace me back  
If a blaze you would you blaze me back  
Spendin big faces on the things you like

When you gonna put me down  
If I ride for you die for you  
If I floss in any cost for you  
Shorty all I wanna know from you  
Is when your gonna put me down

[Verse 2: Donell Jones]

Shorty I'm not tryin to put a rush on you  
Can't keep leavin me with my love on blue  
Nobody's here, we better make a move  
I wanna get into you (Wanna get into you)  
You waillin to floss I really copped that  
Frontin on my love now shorty stop that  
What's it's gonna be when are we gonna put it down  
I need your love right now  
Do you wanna open show me your love  
Stop playin around put me down  
Stop holdin back you gotta react, why your gonna hold  
me down  
Your perkin put the work in, always flirtin got me hurtin  
And you know I don't deserve this girl  
Why your gonna hold me down

[Chorus: Donell Jones]

If I lace you would you lace me back  
If a blaze you would you blaze me back  
Spendin big faces on the things you like  
When you gonna put me down  
If I ride for you die for you  
If I floss in any cost for you  
Shorty all I wanna know from you  
Is when your gonna put me down

[Verse 3: Donell Jones]

On the, top floor in the president's suite  
Hit the, tinted windows in the back of my jeep  
Or your, friends house in the livin room couch  
If you, let me hit it I'm a blaze it out  
Won't you, open up let me come on in  
And I, never stop we can do it again  
Cause you, take it right where I wanna be  
Got me in ecstasy

[Lady May]

Hanky panky, what did you ask me?  
Wanna do the nasty in the back of your navi  
Frankly, me not one of them skanky  
Chicks in your arm one drink then it's on  
Do you know, who your talkin to May Day AKA Miss Lady  
May  
Peep my mind first then my family

Then I'll gladly introduce you to my panties  
I'm barely blossoms I'm Godiva, I'm Destiny's Child I'm  
a survivor  
So when you clowns stop effin around  
I'm gettin daps when I put you down, down

[Styles]

If it's green and it's made out of paper, I'm a get it  
She look mean so wherever I take her, I'm a hit it  
But not the back truck the seats feel comfortable  
I don't think you a skank I wanna get it crunk with you  
I know you a lady ma (I know you a lady)  
But you ridin with a gangsta girl gotta keep it gravy ma  
Just listen when my foot be down  
And I'm far from a clown so just put me down

[Chorus: Donell Jones]

If I lace you would you lace me back  
If a blaze you would you blaze me back  
Spendin big faces on the things you like  
When you gonna put me down  
If I ride for you die for you  
If I floss in any cost for you  
Shorty all I wanna know from you  
Is when your gonna put me down  
If I lace you would you lace me back  
If a blaze you would you blaze me back  
Spendin big faces on the things you like  
When you gonna put me down  
If I ride for you die for you  
If I floss in any cost for you  
Shorty all I wanna know from you  
Is when your gonna put me down
