Hey i'm a blood doctor from hell and the pain really swells. And this animal has been rising and it seems to one back son of gun.

(Chorus)

Well I have seen some really crooked prikes,  
But not a prike who ends up being one selfish bitch,  
oh what snitch!

So you think life isn't bad, well think of a demon coming for you. And rip out your intestents and your triping over them. Well my cells are beginning to rot and i'm going to turn into the animal.

(Chorus)

Well I have seen some really crooked priks,  
But not a prike who ends up being one selfish bitch,  
oh what a snitch!

Well snitchs aren't really your friend, there just twisted people who wont to screw you over.

(Chorus)x2

Well I have seen some really crooked prikes ,  
But not a prike who ends up being one selfish bitch,  
oh what a snitch!
