If I didn't know better, I would swear you don't care
Throw yourself around, hold me down
I can see through you
You're so fucking bull-headed, tormented, I don't get it
Thrown your weight around, hold me down
I can see right through you
Timing here is everything and everything means
everything
I can see right through you
Timing here is everything and everything means
everything
I can see right through you
Timing here is everything and everything means
everything
I can see right
Think I'm gonna be sick

You take anything to get through
You always got something to prove
And you want it all
What you got ain't enough
What you got ain't enough
What you got ain't enough
Come on come on, alright alright

If I didn't know better, I would swear you don't care
Throw yourself around, hold me down
I can see through you
You're so fucking bull-headed, tormented, I don't get it

Thrown your weight around, hold me down
I can see right through you
Timing here is everything and everything means
everything
I can see right through you
Timing here is everything and everything means
everything
I can see right through you
Timing here is everything and everything means
everything
I can see right
Think I'm gonna be sick

You take anything to get through
You always got something to prove
And you want it all
What you got ain't enough
What you got ain't enough
What you got ain't enough
Come on come on, alright alright

I think I'm gonna be sick

You take anything to get through
You always got something to prove
And you want it all
You take anything to get through
You always got something to prove
And you want it all

What you got ain't enough
What you got ain't enough
What you got ain't enough
What you got ain't enough
