We represent the youth  
We're here, we're just like you  
We're the ones with all the names  
We're the ones that want the same!

Shut your mouth and get ready to listen for once  
I think it's time that you back down from your authority  
(?)

We've had enough and we're ready to stand up  
So sick and tired of living in conformity  
But I'm afraid(?), not afraid of what's goin on  
And I can feel your will as it's washing over me  
Can't you see what we have all become ?  
Try to drown me and kill my individuality

(Pre-Chorus)  
...from our certain set of values  
Endless possibilities, none of these we can't do  
As I climbed up the...(?)  
And as I turn to tell you, I saw you slippin' off, off

(Chorus)  
Now we're falling  
We're falling  
(x2)  
Now we're not alive  
We're not the type  
Conform we know we're not alive  
We stand alone, we're all alone  
We're thinking for ourselves !

Shut your mouth and get ready to listen for once  
We hear what you said but we agree not to listen (?)  
We've had enough and we're sick of hearing stuff  
And each time for action, burn all  
And I'm to blame, not to blame for what's goin on  
Dwelling all the places you pretend you can't see  
Can't you see what we have all become?  
And I believe my future's not up to you, it's up to me!

(Pre-Chorus)

(Chorus)

Hurrinize ??

(Chorus)

Ourselves!
