Visit "[Would You Say Yes](#)" on MotoLyrics.com

One night is all I need
One chance is all I get
To make you see you ment to be (with me)
Open doors one way left
Take me out with your last breath
Come Make it to the end lets see(with me)
And lets go round in circles singing

I feel breathless when you around
But I wonder if it would work out
Feelings I've never felt
Temptation I can't deal with right now

Would you say yes if I asked you to dance
Would you feel happy if I popped the question
(would you go out with me)
See the words say what I mean
See them spread hope to do as I need
(would you see me through)
And lets go round in circles singing

I feel breathless when you around
But I wonder if it would work out
Feelings I've never felt
Temptation I can't deal with right now

And lets go round in circles singing

One two see me through
Never let go (never let go) we go
Run with me
Would you say yes if I asked you to dance

I feel breathless when you around
But I wonder if it would work out
Feelings I've never felt
Temptation I can't deal with right now

One more thing before we go would you say yes if I
asked you to dance (dance)
