Heeyyy

Twilight

It gets darker as we walk your mind
Sharing all the stuff you talk about
Don't you find it kinda hard to keep up
Your cool façade?
Well I know
I can see it in the depth of your gaze
You play shy but it's your body that says (You want me)
But your mind's too busy playin them games
Them games, baby, games, babe

(Tired, games) Oh your tired games
(Tired, games) Mmmmm, mmmmm, mmmmm
(Tired) Tired, tired
(Tired) Tired, tired
(Tired, games) Tired, games
(Tired, games) Don't play me, don't play me, don't play
I could be your main squeeze, if you'd only be real with
me, baby be real with me

Uh

Baby, be
Baby ba-ba-baby be

Well tonight

Is the last time on this merry-go-round
We both know what you've been lookin, you've found
You'd be coy, but the twinkle in your eyes
Another telling sign
Oooh, one on one, babe
You don't have to be a lady tonight
We'll do anything that feels good and right
(You want me, you want me) I know you do
(You want me, you want me) Oh don't don't play

(Tired, games) Oh your tired games
(Tired, games) Mmmmm, mmmmm, mmmmm
(Tired) Tired, tired
(Tired) Tired, tired
