Because I love you, I get tongue tied around you
I never say smart stuff around you
I never say anything around you
That makes you want to be with me

So, because I love you, I will never be with you
There's plenty other people who I always find the words
for
That I have the sweet gift of gab for
That I'm magical and good for

Who because I do not love them, always want to be with
me
Everything I say is true, so there's nothing we can do
Then what the hell I'll say to you
Let me have one dance with you

I recognize the look
In my eyes when I see you
It's the look of one who loves you
Who wants nothing except to be with you

It is not the look that often gets returned in kind
Same old tales ain't nothing new
What the hell's a soul to do
But maybe you can help me through

Giving me one dance with you, one dance with you
One dance with you, one dance with you
One dance with you

Why do all the rules I make
'Bout how to act around other people
Like don't write them private notes trying to explain
your foolish actions
Like not hanging around for hours after it's obvious
That your presence ain't desired like names are not
important

So if someone forgets your name
They're forgetting something intangible
That has nothing to do with you

So it's stupid to feel bad, if someone forgets your
name

Why do all the rules I make
'Bout how to act around other people always fall by the
wayside
When I get around you there ain't no more carrot stew
That old sky ain't never blue that's a lie but this is true

All I want's one dance with you
My bed's unmade, my stuff's askew
I ain't heard the dumbest clue
I just want to squeeze on through

By getting one more dance with you
Stick it while there's still some glue
Move that stuff while there's a crew
Before I stumble someplace new

Let me have one dance with you
Let me have one dance with you
Let me have one dance with you

Woody Guthrie carves a sign into his guitar
"This machine kills fascists"
Ani Difranto says, "Every tool is a weapon if you hold it
right"
I say, "Here's a monkey wrench, bop me on the head
long enough
Maybe I'll wake up for a second"

One dance with you, one dance with you
One dance with you, one dance with you
One dance with you, one dance with you
One dance with you, one dance with you
One dance with you, one dance with you
One dance with you, dance with you, dance with you

One dance with you, one dance with you
One dance with you, one dance with you
One dance with you, one dance with you
One dance with you, one dance with you
