Yeah Everyone say yeah yeah yeah

Born to be lively, we're born to be lively Born to be lively, we're born to be lively So when you see Ziggy doing his thing That's why he was born And when you see Steve doing his thing That's why he was born

We're on a positive track today Well, it's a positive track not trail We're on a positive track today Well, it's a positive track not trail

Nothing they do can keep us down People move Nothing they say can stop this crowd People move Nothing they do can keep us down People move Nothing they say can stop this crowd

We rejoice in good times, yeah
We rejoice in bad times too, yeah
So, no matter what's going down
I say, born, ba ba born, we're born for lively
Push out your hand and move your body
Face no bend up like a soldier
Smile for the gal, make them feel Irie
Nuff niceness in a the ras party born, born, born for Irie

Keep yourself high
We're born to be lively
We're born to be lively
You're born to be lively
You're born to be lively
Ciddy's born to be lively

She's born to be lively
Sharon's born to be lively
She's born to be lively
So when you see Ciddy's doing
Ciddy's doing her thing that's why she was born
And when you see Sharon
Sharon's doing that thing that's why she was born

We're on a positive track today Well, it's a positive track not trail We're on a positive track today Well, it's a positive track not trail

Ayy, nothing they do can keep us down
People move
Nothing they say can stop this crowd
People move
Nothing they do can keep us down
People move
Nothing they say can stop this crowd

We rejoice in good times, yeah
We rejoice in bad times too, yeah
So no matter what's going down
I say born, born, born for lively
Tell you again although we tell you already
Live off your tam and fly you natty
Show me all the lady who is hotty, hotty
Nuff niceness in a the ras party born, born, born
Born, born, born, born, born, born for lively

Keep yourself high
Keep yourself up now
Keep yourself high
Keep yourself high
Keep yourself up now
Yeep yourself high
You didn't know no, no
You didn't know no, no, yeah

Born to be lively
We're born to be lively
Said, I'm having fun
You're born to be lively
You're born to be lively
Everyone having fun
