No more pain on the battle field
Help your friend if they're in need
Give her what she wants, a
And give him what he needs

'Cause this is where it start
Yea straight from the heart
Yea 'cause this is where it start
Yea straight from the heart, together now

Brotherly brotherly love
Sisterly love
Brotherly brotherly love
Sisterly love

Fightin' one another
It never get us no where
Still in the same boat
As yesteryear, oh yeah

People killin' the people, a
It never get the people no where, nowhere
People in the same boat
As yesteryear

We got to have
Brotherly brotherly love
Sisterly love
We need to give yea
Brotherly brotherly love
Sisterly love

They rule and lead the wrong direction
It's up to me and we've got to make the correction
They lead and rule and lead the wrong direction
It's up to you and me to make the correction

No more pain on the battlefield
Aye help your friend if they're in need
Give her what she wants
And give me what I need

'Cause this is where it start
By hill by town
Yea straight from the heart
Yea this is where it start
You better notice
Yea straight from the heart

Some brotherly brotherly love
Sisterly love
Brotherly brotherly love
Oh sisterly lovin'

Yea I'm givin' you
Brotherly brotherly love
I need you to
Sisterly love
Sisterly lovin'
Yea I'm giving you
Brotherly brotherly love
And I need you to
Sisterly love
Oh sisterly lovin'
Got to get
Brotherly brotherly love
Love for one another
Sisterly love
Got to need together
