Sierra Leone, Sierra Leone, yea, Sierra Leone, yea  
Well I've seen a crime  
To which I can't be blind  
Living in a diamond city  
With a broken heart

Well I've seen a crime  
To which I can't be blind  
Living in a diamond city  
With a broken heart

Oh diamond city, let me take you there  
Well, well, well  
There everyday there's a need for revolution  
She's like a mother who denies her newborn milk,  
sweet milk  
Lost are the thrills of life as we know them  
They one man swim yet many more are drowning

Well I've seen a crime  
To which I can't be blind  
Living in a diamond city  
With a broken heart

Yes, I've seen a crime  
To which I can't be blind  
Living in a diamond city  
With a broken heart

In a diamond city, let me take you there  
Well, well, well  
Surely we can help each other in this earth  
Ain't no need to be greedy or too proud no need  
Because the color of our skin  
They gave us no chance to win, ahh

Well I've seen a crime  
To which I can't be blind  
Living in a diamond city  
With a broken heart

I've seen a crime

To which I can't be blind  
Living in a diamond city  
With a broken heart  
Oh diamond city  
With a broken heart

We will fight for our rights  
We will fight for Africa  
We will fight for our freedom  
Did you hear? We will fight for Africa, Africa

I've seen a crime  
To which I can't be blind  
Living in a diamond city  
With a broken heart

Yes, I've seen a crime  
Where are the cops this time  
Living in a diamond city  
With a broken heart  
Oh diamond city  
With a broken heart

Oh diamond city  
Come here let me take you there  
Let me take you there  
I'll take you there  
Let me take you there  
Let me take you there
