I got to get out of town, leave the town  
There's too much pollution is there a solution  
Got to get out of town leave the town I wont be hanging  
around  
I'm gonna catch the train I'll never play your game  
My life isn't based on how much money I make  
I wanna live in peace but it's hard today  
There's always something trying to take it away  
I rather change my situation than change who I am  
Don't wanna hurt no one just to prove I'm a man  
I wanna plant a little grass on a piece of land  
And help this planet as best as I can  
I've got to get out of town, leave the town  
There's too much pollution is there a solution  
Got to get out of town leave the town I wont be hanging  
around  
I don't care bout the silver I don't care bout the gold  
I don't care bout the sex with a heart that so cold  
Misused by abuse and refused, refused by misuse and  
abuse  
Hey where will I go nobody know  
Maybe to Maui or maybe to Fiji or maybe to Ghana  
where my mama lives  
Or way up to the Nine-mile hills  
I got to get out of town, leave the town  
There's too much pollution is there a solution  
Got to get out of town leave the town I wont be hanging  
around  
In this political rut oh who can you trust, Cause no  
ideology can ever control me  
Who them you fool once, who them you fool twice  
The silent majority everything's a conspiracy  
Till you wake up one morning and the truth has dawned  
Too late for most people they got stuck in the storm  
Like a cub leaves the den a boy leaves his home  
In search of a truth that must be found
