Can't take heartache
Can't take

Another problem with a woman again
Another problem with a woman again
Another problem with a woman again
Another problem with a woman again

Sometimes it's hard to express yourself
To get, get things off your chest, my friend
Tell you one more time

Another problem with a woman again
Another problem with a woman again
Another problem with a woman again
Another problem with a woman again

Sometimes it's hard to express
You know what I mean, Robbie
To get, get things off my chest
Gonna give you one more chance

Another problem with a woman again
Another problem with a woman again
Another problem with a woman again
Another problem with a woman again

You know what I mean, Robbie
Say, you know what I mean, Robbie
I know you got them too
A woman again
