Yeah reggae in my head, reggae in my head, reggae
in my head
Sitting by the river listening to her songs
She played it all night long
She brought me from defeat hypnotized by the beat
On the rocks I made my bed she played reggae in my
head

Reggae in my head, reggae in my head, reggae in my
head
Cities of oppression there is no imagination
Oh to be wild and free again
A world without dreams is lost it seems
In the prison of known realities so I say

I got reggae in my head, reggae in my head, I put
reggae in my head
Oh what a wonderful world this could be only if we live
in peace
Dancing to this vibration this is my emotion
Sitting by the river listening to her songs
She played it all night long
She brought me from defeat hypnotized by the beat

On the rocks I made my bed, she played reggae in my
head
Reggae in my head, reggae in my head, reggae in my
head
I got reggae in my head, reggae in my head, I want
reggae in my head
I got reggae in my head, I need reggae in my head,
reggae in my head
