What I say
Spread out
Yeah, yeah

When the light gone out and the food run out
All we have is just the music
When the light gone out and the food run out
All we have is just the music

Battery tape playing in the street
My only relief
All we have is just the music

No matter what the crisis
It keep the spirit lively
Just as you feeling blue
Well, I'll be there for you

When the light gone out and the food run out
All we have is just the music
When the light gone out and the food run out
All we have is just the music

I got the battery tape playing in the streets
My only relief
All we have is just the music

There ain't no party
Unless the music Irie
There ain't no lover
Unless you show me

When the light gone out and the food run out
All we have is just the music
When the light gone out and the food run out
All we have is just the music

Pretty girl dance in the street
My only relief
All we have is just the music

There ain't no dance

Unless you have good music
If you don't have good music
Then you don't have a chance

When the light gone out and the food run out
All we have is just the music
When the light gone out and the food run out
All we have is just the music

And the battery tape playing in the street
My only relief
All we have is just the music

When there ain't no justice to be found
They kicking you around
All we have is just the music

When the light gone out and the food run out
All we own is just the music

You all know there ain't no party
Unless the music Irie
There ain't not love
Unless you show me

When the light gone out and the food run out
All we have is just the music
When the light gone out and the food run out
All we have is just the music

When the lights gone out and the food run out
When there ain't no justice to be found
Is just the music

When there ain't no answer from above
When there ain't no one to love
Is just the music

When there ain't no shoe on your feet
When there ain't nothing to eat
All we have is just the music
