

Ziggy Marley "Wrong Right Wrong"

Visit "[Wrong Right Wrong](#)" on MotoLyrics.com

Some people got the wrong right
Some people got the right wrong
Some people got the wrong right
Some people got the right wrong

Wrong right
Some people have the right wrong
Some people have the wrong right
Some people have the right wrong

And they're teaching their doctrine
To the children of today
Every mickle make a muckle
If you know what I say
Don't be fooled by the fool
The trick that they play

People lie, people lie
People lie, people lie

Wrong right
Some people have the right wrong
Some people have the wrong right
Some people have the right wrong

And they know what is in their mind
They're trying to prove instead of to find
Truth don't hide in no valley
Truth don't hide in no book
Truth a hide in your heart

Some people have the wrong right
Some people have the right wrong
Some people have the wrong right
Some people have the right wrong

Woe onto them who cause iniquity
With chords of vanity, they call evil good
Put darkness for light, bitter for sweet
Woe unto dem who are wise
In their own eyes, what a life

Behind the scene eyes nuh see
What governments hide
C.I.A. should D.O.A., K.G.B. should R.I.P.
That's what's on my mind

The Bible was changed just to suit King James
Many empty lies, hear say, hear say, hear say, me say
John public blind, people want to know the truth today

And the world became this way
Because the trick in the trade
They refuse to see it save the people pray
Doctrine where is your happiness?
We're in a slummy economic mess

Whole world is crying
Whole world is dying

Wrong right
Some people have the right wrong
Some people have the wrong right
Some people have the right wrong

Some people have the wrong right
Some people have the right wrong
Some people have the wrong right
Some people have the right wrong

Some a dem, some a dem
Some a dem, some a dem
Some a dem, some a dem, some a dem

Some people don't know
Some people don't show
Some people don't know
Some people don't show

[Incomprehensible] Africa [Incomprehensible]

Wrong right
Let me tell you about the right wrong
Let me tell you about the wrong right
But some of dem have the right wrong
Now I will tell you about the wrong right
Then I will tell you about the right wrong
Then I will tell you about the wrong right
Then I will tell you about the right wrong
