Like a jewel in the night,  
Feelin' darkness with your light,  
You are silent and serene,  
A lover for eternity,  
Please take me to this other world,  
Where our hearts and souls could lie,  
A stairway to infinity,

Like a jewel in the night,  
Feelin' darkness with your light,  
You are silent and surrene,  
A lover for eternity,  
Don't leave me on the edge of time,  
Cuz I'm ready to set sail,  
Across the ocean to my inner dreams,

You're luminous and beautiful,  
Brighter than the light of a thousand suns,  
You mystify me, intensify me!  
So luminous and beautiful,  
You light me up like a superstar,  
You mystify me, ellectrify me!
