It really caught me
That look in your eyes
You're in control
No need to resist
Time stood still
No sounds to kill
Time stood still

It really caught me
That look in your eyes
You're in control
No need to resist
Time stood still
No sounds to kill

You can blame it on fate
At least that's what I thought
When you love, it covers your eyes
You stumble in the dark

When love covers your eyes
No no no... ooh

Time stood still
No sounds to kill
