I don't know her
But I don't mind,
I think that I am going crazy
I met her in a Sunday morning
Descending from the thunder haze,
Put your hands in my hand and close my eyes with your
fingers,
Put your lips girl on my mouth,
I love all the ways you used to make me feel better
Well take your time we live inside anatomic
Haze girl,
Beautiful girl,
Step out of the rain and let everything vanish away
Oh changes
Its hard to go on but it's better then fading away.
I think that I am going crazy
Put your hands in my hand and close my eyes with your
fingers,
Put your lips girl..
I love all the ways you used to make me feel better
Well take your time we live inside anatomic
Haze girl,
Beautiful girl
Step out of the rain and let everything vanish away
Oh changes
Its hard to go on but it's better then fading away (3x's)
La la la la la na na na na na la da da.....
Fading Away
