Penetrate my will to speak
This feeling just won't go away
Straight line through my soul
And feel my inability to stop this today

Hardline the drug of affection
At least I know how to hurt it to perfection
The silver drop gets under my skin, my skin

I wake up, now I'm alone again
I've been here, I didn't like it then
I bleed 'cuz this is what I am
My last shot, now make me twice the man
This is what I am

And I know my time will come
My time to cross the nation
With screams of insane heresy
I label minds in frustration

Come on and lead me into the light
Twenty reasons to guide me
I need a reason to stand up and fight
Need to believe what I see

The stars are shining on me tonight
I need my wishes to come true
But though the cure I need is in sight
I'll never make it through

Reason is only a matter of opinion
Control is only an illusion to spit on
Bring my coffee, a truth to lean on
My silence is bought and my beliefs are all gone

Innocent as a new born child
No need to point your fingers
I never did the things you say
I never hurt no one in anyway so

Come on and lead me into the light
Twenty reasons to guide me

I need a reason to stand up and fight
Need to believe what I see

The stars are shining on me tonight
I need my wishes to come true
But though the cure I need is in sight
I'll never make it through

And I know that they don't want me
And I see that it's beyond me
