There are no limits when you look at the sky
there are no limits when you look up so high
(x2)

listen to me specially you
i know my future
do you know yours too?
everybody c'mon breakthrough
there are no limits even for you

there are no limits when you look at the sky
there are no limits when you look up so high
(x2)

are you ready to do what you must?
so move your body
so join lust
now you've got it
you're out of the dust
a taking over it's we can trust

there are no limits when you look at the sky
there are no limits when you look up so high
(x2)

look at the sky
look up so high
(x4)

there are no limits when you look at the sky
there are no limits when you look up so high
(x2)
