You better pray that I don't find you
You're gonna pay oh when I see you
You'll see my face, when death's behind you
You'll feel the pain that I hold for you

I can sense your fear no use in runnin'
Your end is near cause I'm a-comin'
Don't shed no tears, 'cause there's no love here
You've called my name, now take what's comin'

I wanna make you die real slow
Watch your body shake and convulse
Stare into these eyes as I steal your soul
Come join the tortured ones that I already own

You better pray that I don't find you
You're gonna pay oh when I see you
You'll see my face, when death's behind you
You'll feel the pain that I hold for you

I wanna make you die real slow
Watch your body shake and convulse
Stare into these eyes as I steal your soul
Come join the tortured ones that I already own

I wanna make you die real slow
Watch your body shake and convulse
Stare into these eyes as I steal your soul
Come join the tortured ones that I already own
