Ancient in the art of murder  
Women and children it devours  
Eat their hearts raw, tear limbs asunder  
Eyes of flame; feel it's power

There's a terror in the woods  
It'll bring you down  
Now become it's prey  
In the night, in the day

Bringing horrors to your town  
You can hear the lupines howl  
Howl

Tyrannous beast to kill and deflower  
All the girls will run and cower  
To pluck their throats and bring them malice  
Lust fulfilled, pleasantly devoured

There's a terror in the woods  
It'll bring you down  
Now become it's prey  
In the night, in the day

Bringing horrors to your town  
You can hear the lupines howl  
Howl

There's a terror in the woods  
It'll bring you down  
Now become it's prey  
In the night, in the day

Bringing horrors to your town  
You can hear the lupines howl  
Howl
