Ah ah ah...  
Don't cry for me  
'Cause there's one thing I found out  
I can live without you every day  
& I'm better off with you far away from me

Ah ah ah...

Don't break your heart  
Thinkin' you have let me down  
In the light of day I can see what's real  
& now I know what I really feel for you

(x2):

Ah ah ah...  
If I'm wrong, you can smile & say I told you so  
But I've got that feelin' that I found that you can lie, so  
Don't cry for me  
You will only waste your time  
Thinkin' I'm in tears, for you're here no more  
But the tears won't come, & I'll cry no more for you

Ah ah ah...
