I feel like the rockets
You fired in the sky
When we first kissed
And you looked into my eyes
I don't know
Where our trip will end
Destination unknown
Destination unknown

We're rockets on a journey
Journey for two
We're rockets on a journey
Exploring me and you

I wish that we could land
On the dark side of the moon
Where no one can see us
Embraced by the gloom
I don't know
Where our trip will end
Destination unknown
Destination unknown

We're rockets on a journey
Journey for two
We're rockets on a journey
Me and you

We're rockets on a journey
Journey for two
We're rockets on a journey
Exploring me and you

We're rockets on a journey
For two
We're rockets on a journey
Me and you
Me and you ...
