We need something special
Or you'll all just tear us all apart

I'm spilling this out for you
But you'll never listen to what I say

And now is the time
To suck up my pride

Looks like I'm giving up this time
Looks like I'm giving up!

I confess
You've blurred my dream
I never even had a chance

We'll take it all
We'll take it all
And never look back
We'll run so far
We'll run so far
And you'll never stab our backs!

And no one will ever tear us down
We've reached for every star
This message use to be
Imprinted on all our hearts
(I'm so conflicted, should I give this up?)

I'm so conflicted, should I give this up?

Just who are you to take this away
You never thought I'd have the nerve to say this
I'm calling you out
This is the last time you'll see me
In this town

Run!
As fast
As you can
I will never
Drop my guard

This is us
Taking this back
So we can get
What we deserve
