Girl, I know you love a thug be wildin'  
Smack flames out a nigga and I got you smilin'  
The way I cut a nigga every which way but loose  
A blood stained Gucci suit will be the proof  
Laid back cat but I love to chill  
Love a freak in a thong with a freak full of yawn  
Said you went to Catholic school and that's cool  
Let me see you throw the suit on

With no interruptions, ma turn the cell off  
Start for the touchin' and I'm sick with the candle  
A fatty, ain't nothin' that a nigga can't handle  
I been through it  
It's a first time for everything, settin' you free  
And I feel you your man ain't lettin' you breathe  
You a dime from your face to your navel  
Your man better wake the fuck up and let you out of  
that stable

Used to think like that until I thought  
That's the shoe on the other foot and I got for  
Stay home, cook and clean like she the boss  
Hell no nigga, not while I'm up in New York  
She gonna do what she want, flirt when she want  
Fuck who she want, then nigga, it's a wrap  
You like 'No she won't', but yes she will  
Chick might as well have Big comin' out of jail

I got them keys to those handcuffs  
Wanna be free, throw your hands up  
I got them keys to those handcuffs  
Wanna be free, throw your hands up

I got them keys to those handcuffs  
Wanna be free, throw your hands up  
I got them keys to those handcuffs  
Wanna be free, throw your hands up

My niggas in NY know the game  
Bitch front, she gettin' out on the shoulder lane  
It's 3 in the mornin', why you think you came  
Should've stayed where you was, I don't play those

games  
Ring on the finger, fatty off the meter  
There's only one thing that this shit could lead to  
The reaction, your mind'll crack  
And put my mans on if it's poppin', bitch you laughin'?

Everything that I spit is real  
And everything on your inside you scared to tell  
The word creep, "No" ring a bell  
Girl, I know the situation all too well  
I'ma keep it gangsta, rep the 'bout  
Lady caught on, so I had to bounce  
With bleach in the crib, all my clothes got doused  
That's when a nigga knew I had to get out

Know what you're goin' through, been there before  
Relationships now, it's like they got these laws  
Girl all you wanna do is just be free  
And that's why a nigga like me got these keys

I got them keys to those handcuffs  
Wanna be free, throw your hands up  
I got them keys to those handcuffs  
Wanna be free, throw your hands up

I got them keys to those handcuffs  
Wanna be free, throw your hands up  
I got them keys to those handcuffs  
Wanna be free, throw your hands up

I got them keys  
Wanna be free  
Wanna be free
