The pressure, dealin' with the peer pressure
(You gotta find a way to deal with)
The pressure, dealin' with the peer pressure
(You gotta find a way to deal with)
The pressure, dealin' with the peer pressure
(You gotta find a way to deal with)
The pressure, dealin' with the peer pressure
(You gotta find a way to deal with)

As a young black teen, everyday I deal
With the pressure and mixed up is how I feel
I walk the streets with a fuck you attitude
And when it comes to my peoples you ain't half as rude
Follow the crowd or be a leader, take your pick
Now I'm smokin' Buddha Philly blunt style

A frustrated and confused young juvenile
King of the project blues so I choose
To take a piece of the action
But my sober state of mind won't let it happen
So twenty-four-seven it's the number one stresser
Dealin' with the peer pressure

The pressure, dealin' with the peer pressure
(You gotta find a way to deal with)
The pressure, dealin' with the peer pressure
(You gotta find a way to deal with)
The pressure, dealin' with the peer pressure
(You gotta find a way to deal with)
The pressure, dealin' with the peer pressure
(You gotta find a way to deal with)

Most don't understand how it is
In the world of today growin' up as a young black teen
I used to dream, of bein' a architect
Easier said than done, believe me it's hard to get
Out of the projects, without forgettin' where you came
from
My parents told me from day one
Finish school and avoid all obstacles
But my environment, makes it so impossible

For instance, build a strong social life
Without messing up still trying to live right
Like in junior high, I used to wonder why
Certain females went out with certain guys
Then one day, it all dawned on me yo
You gotta be down, and have it goin' on see
I wasn't down with the mainstream or
Should I say their team, now I'm gettin' steamed

Gotta find a way, to get accepted by my peers
So now I'm sippin' on beers
Buyin' new gear, nothin' but the best
Forget Levi's strictly Polo and Guess
But how would I make the cash?
It gotta be easy and it gotta be fast
Thinkin' to myself does that make me lesser
Just, dealin' with the peer pressure

The pressure, dealin' with the peer pressure
(You gotta find a way to deal with)
The pressure, dealin' with the peer pressure
(You gotta find a way to deal with)
The pressure, dealin' with the peer pressure
(You gotta find a way to deal with)
The pressure, dealin' with the peer pressure
(You gotta find a way to deal with)

The pressure, dealin' with the peer pressure
(You gotta find a way to deal with)
The pressure, dealin' with the peer pressure
(You gotta find a way to deal with)
The pressure, dealin' with the peer pressure
(You gotta find a way to deal with)
The pressure, dealin' with the peer pressure
(You gotta find a way to deal with)

Around my way there's a kid that most don't
understand
How he lives, Is it negative or positive?
He has a grade A average
But when he's on the streets, with his friends, he's a
savage
A freshman of high school, daily attendant
He never got in trouble never did he get suspended
Good little Kenny who would believe
He dropped out of school to start to smoke weed

I saw the signs but I didn't pay attention
Because he got offended every time that I would
mention
The drinkin', the smokin', the low school grades

And sleepin' in class laid back with his black shades
Nowadays you catch Kenny hangin' in the hallways
With his crew findin' more ways
To break out of school, and hit the block and get buck
wild
Stay out of the way of a mad child

'Cause he's a product of, hell
Kenny never fell but he's gonna fall overall
So let's take a trip to the ghetto
Where Kenny got drunk and bought a burner off his
man
So he pulled the trigger and the suicide note read
"I'm glad it's finally over and I'm finally dead"
And no more, do I have to feel, lesser, or
Deal with the peer pressure

The pressure, dealin' with the peer pressure
(You gotta find a way to deal with)
The pressure, dealin' with the peer pressure
(You gotta find a way to deal with)
The pressure, dealin' with the peer pressure
(You gotta find a way to deal with)
The pressure, dealin' with the peer pressure
(You gotta find a way to deal with)

The pressure, dealin' with the peer pressure
(You gotta find a way to deal with)
The pressure, dealin' with the peer pressure
(You gotta find a way to deal with)
The pressure, dealin' with the peer pressure
(You gotta find a way to deal with)
The pressure, dealin' with the peer pressure
(You gotta find a way to deal with)
