[Havoc]

Ready for war, Ready for anything  
But Doing this for everything  
Y'all niggers Know my pedigree  
Fourty first side, blood run through my veins  
Got everything in game  
Like to stock and change  
Got shorti in the hood on the ankle rockin my name  
Words that I spit, Its my brain and pipe game  
Call me your natural right ring  
Qb's radaiclas, just doing his thing  
Aiyo, niggas hate it  
Even though they try to portray it  
This money looking good, fuck it you can all hate it  
Like I'm going to lose sleep, hold life, have beef  
So you can say what you think about me  
Yo you niggas like Nas and gun fight your dead room  
Pull out the nine and still got hooked on  
Your no frill skim  
And on skill team  
Got you in a combma  
Angel of your shoulder

[Chorus]

Aiyo we live this eat, sleep, shit this (repeat 7X)  
We live this, live this, this...

[Big Noyd]

Aiyo, Aiyo, Aiyo  
Its alyways Going to be ganster with me  
Nigga, with Tim's on my feet  
Either sweats or denim jeans, brand new white tee  
With my chain swinging
