Yeah, 'bout to get my head right on this one  
Oh oh oh yeah, oh oh oh, uh-huh uh-huh  
Yeah, yeah c'mon

Hav' come through, slump low with the seat back  
With somethin' in the stash to push a elephant bean  
back  
Shit, my shit is touchin', hungry hurry up need that  
Tryin' to live right, only a junk for the relapse  
Perhaps I'll fold, maybe I won't  
Go back to it like an old bitch I boned  
Nigga havoc he a problem 'specially when he zoned  
Let a nigga get foul like the wool he smoked, so

Smell me people, these clowns ain't equal to I  
Bitches feel me 'cause they love my vibe  
Know what a chick want, know what a chick need  
Recognize the difference from a male, and chicken  
feed  
I'm blessed that's why my neck is glistening  
You in a slump 'cause you not listening  
We hold our own and earn our keep  
And never ever get more than the one eye sleep

(We up!)  
Word man  
(We up!)  
I be havin nightmares son  
(We up!)  
(And I love it, and I love it)  
(We up!)  
I don't even wanna go to sleep no more  
(We up!)  
I be havin the illest dreams son  
(We up!)  
Tell you about this shit son  
(We up!)  
Yo  
(Everybody wake up!)

I'm havin' dreams of squeezin' a gun that don't work  
And some nigga with a tech come and wet my shirt

I catch bullets in my stomach, and them shits burn  
I wake up sweatin', holdin' my stomach 'cause it hurt  
Yo the shit seem too real, I'm dyin' of thirst  
I gotta drink mad water just to calm me down thirst  
'Fore I get back to sleep, and get some rest  
Then I can't get back to sleep, I'm too stressed

I got the shorty real close, right under my bed  
I know that work, 'cause I been practicin'  
With my gauge at the range, nigga I'm nice wit it  
Nigga motherfuck them dreams, I'm real life wit it  
You'll be coughin' up yo' spleen', guts an' all kinda shit  
You invade my space, I'm beatin' the case  
Nigga come fuckin with me, yeah that's my kind of shit  
Please, or all of my guns'll be a waste

(We up!)  
Yeah, I feel you my nigga  
(We up!)  
No doubt  
(We up!)  
That's why I'm glad we up man  
(And I love it, and I love it)  
(We up!)  
We got niggaz to do that shit for us y'know?  
(We up!)  
Word up man  
(We up!)  
That's right my nigga we up  
(We up!)  
Everybody wake up!
