Monday, might as well be Sunday
You're so predictable
And so the story goes
Someday, we could be so happy
You're unbelievable
I've got no
You can't be right, all of the time
It's not gonna fly

Chorus
La la la la lalala la la... (repeatedly)

Monday, might as well be Sunday
You're so predictable
And so the story goes
All these *lies* they come so easily
It could be so crazy
How the story goes
You can't be right, all of the time
It's not gonna fly

Chorus
La la la la lalala la la... (repeatedly)

Stars shine, bright
Against the wind, fallin' again
They kiss my skin, Over and over again
And again and again...

Chorus
La la la la lalala la la... (repeatedly)

Crazy thinkin' you were the one for me
You made it so easy, I'm better off alone
Crazy how you think it's supposed to be
But now it's so clear to me
We're better off alone.
