You paint your body beautiful
All the colours of the sky
Blinded by bubblegum
I never asked you why

If this is heaven we'll be alright
If we're in hell it's way past midnight
It's a mistake now Andromeda
It's much too late now Andromeda
Can't see through this cloud of euphoria
It's a mistake now Andromeda
Don't choke on the stardust baby

Trouble with the neighbourhood
You could say i've lost my taste
Tattooed and genuine
No the real things not a waste

If this is heaven we'll be alright
If this is hell it's way past midnight
It's a mistake now Andromeda
It's much too late now Andromeda
Can't see past this cloud of euphoria
It's a mistake now Andromeda
Go choke on the stardust baby

It's a mistake now Andromeda
Can't see past this cloud of euphoria
It's a mistake now Andromeda
Go choke on the stardust baby

Stardust
Stardust baby
Choke on the stardust, yeah
