My bubble burst  
I'm awake for hours  
You drag me back to sleep  
I wanna swim in your bathtub baby  
But your water is much too deep  
Hang on and slide down the drain

Blue over you  
Blue over you

I love the climate  
But you hate the weather  
Just imagine, i'll believe  
Knocked out over a dust cloud dead end  
Now i'll wear you on my sleeve  
Worn out and heart broke again

Blue over you  
Blue over you

Yeah you blew my mind for pleasure  
And I blew it under pressure  
Blue

You've got a secret  
And I can tell  
Heaven knows I wanna know you too well  
But this crazy beat surrenders me  
I'm scared

Yeah you blew my mind for pleasure  
And I blew it under pressure  
Blue

Yeah you blew my mind for pleasure  
And I blew it under pressure  
Blue
