

Zuckerbaby "Over Exposure"

Visit "[Over Exposure](#)" on MotoLyrics.com

Dial tone power lines and time zones
Are you receiving me? wish bones killing two birds
With one stone's throw
No fear the picture I have is so clear
To you it's a mystery you hear
The voice but you wont listen to the noise

From the other side, looks like black and white
Overexposure
In another light it seems like suicide
No one learns
Nothing burns

Sky write the alibi is air tight
Hosting the nd to one
The parasite won't bite

From the other side, looks like black and white
Overexposure
In another light it seems like suicide
No one learns
Nothing burns

From the other side, looks like black and white
Overexposure
In another light it seems like suicide
No one learns

From the other side, looks like black and white
Overexposure
In another light it seems like suicide
No one learns
Nothing burns
Afraid of the light
Afraid of the light
Afraid of the light.
