"Radiate"

I'm a slave to your dirty word
Yeah have you heard
Radiate all together
On the inside you let it shine
You radiate then disappear

Your bombs keep blowing up my scenery
You show up and leave
Me choking on the weeds

Experience and breathe the fumes
All that ain't so strange to you
Release me only when you're happy
It's all I want to be

I'm a slave to your dirty word
Yeah have you heard
Radiate all together
On the inside you let it shine
You radiate then disappear

I'm a slave to your dirty word
Yeah have you heard
Radiate all together
On the inside you let it shine
You radiate then disappear

Your bombs keep blowing up my scenery
You show up and leave
Me blowing like a breeze

Experience and breathe the fumes
All that ain't so strange to you
Release me only when you're lonely
It's all I want to be

I can't hear your voice
Or see your light
One kiss, bad luck for me tonight
Too dark to shine forever nowhere, no way
Release me only when you're happy

It's all I want to be

I'm a slave to your dirty word
Yeah have you heard
Radiate all together
On the inside you let it shine
You radiate then disappear

I'm a slave to your dirty word
Yeah have you heard
Radiate all together
On the inside you let it shine
You radiate then disappear

You disappear
Disappear
