All alone a sugar deserted highway  
The moon was full and baby my tank was empty  
Got the fever bad, I can't break from the spell  
The story's sad but the ending's happy

Won't you be  
Be my valentine  
You be high, I'll be low  
Won't you be  
Be my valentine  
Together all alone

Diamond rings among the most precious and useless  
things  
Sick on wedding cake feel like i'm going crazy  
Over there driving the same old broken ground  
Got the pedal down together we'll be so lonely

Won't you be  
Be my valentine  
You be high, I'll be low  
Won't you be  
Be my valentine  
Together all alone

Won't you be  
Be my valentine  
You be high, I'll be low  
Won't you be  
Be my valentine  
Together all alone

Together all alone.. mm mmm
