She was kissing the concrete
He was smelling the static
How typically dramatic
So much alike in every way
It was all terribly romantic
They came from opposite planets
Attracted like magnets
To collide is so exciting
Head over heels is how it feels
Accidentally struck by lightning

How do you do
Are you turning blue
True blue if you knew
Where you were going to
Too long overdue it's true
Over the edge

Swing on the moon
I'm addicted to a piece of you
Yeah Venus was a friend of mine

Tongue-tied to a mood ring
The sweetest sensation
Forget about the fashion
Never felt so dead in candy apple red

How do you do
And you're turning blue
True blue if you knew
Where you were going to
Too overdue it's true
Over the edge
Swing on the moon
I'm addicted to a piece of you
What's your sign
Yeah Venus was a friend of mine
Be alive without the passion
