Well I know it's over  
Like a waste of mind  
Well I know it's side ball  
I can't seem to find  
Like a waste of someone  
Like a wasted home  
Well I know it's over  
I know it's over long  
Did you ever slip inside my ozone  
I saw it in my eyes  
Ever slip into me baby?  
And I know it's mine  
I gotta say it's all mine  
With so low  
Well I know it's not mine  
With so much  
Well I say it's all mine  
With so low  
And I know it's not mine  
Well it's solace baby  
I saw the face of mine  
You took my hand and held on  
For the longest time  
I was always looking to be the one for you  
It could have been so perfect  
If I still lied at you  
And I want to scream inside you no-one  
Did you ever look at me  
I saw a place where I was open  
Now it will die mine  
I gotta say it's all mine  
When no man  
When I know it's not mine  
With so much  
When I'm faking the lies  
With so low  
I gotta say it's all mine  
Gotta say it's all mine  
Wanna say it's all mine  
Gonna say it's all mine  
It was so good

It was so good  
It was so good  
It was so good  
It was so good  
It was so good  
It was so mine  
I gotta say it's all mine  
With so low  
When I know it's not mine  
It's over  
And I can face it no lie  
With so much  
Well I know it's not mine  
With so low  
I know it's not mine  
With so much  
I gotta face it's a lie  
With so low  
I know it's not mine  
With so far  
I gotta place it's a lie  
It was so good  
So good  
Say it's so good  
Say it's so good  
Say it's so good  
Say it's so good  
Say it's so good
