If you want to know
It's getting hard to forget you
I'm playing along here
Coming up with a thousand things to do

EEEE Saudade (kiss me)
EEEE Saudade (kiss me)

If you want to know
I already ran off
So I wouldn't have any regrets

I already tried not to feel
But that's not something in your power to decide
EEEE Saudade (kiss me)
EEEE Saudade (kiss me)
Longing makes you hurt, it makes you agonize
Longing doesn't happen to those who aren't in love
Longing already made me lose my groove
Longing's dragging me through the mud...
