Diamonds in her hair
Diamonds fill her eyes
Diamonds from her rough
To sympathize
Shine on through my days
Shine on to my life
Shine an open sky
Til all seems right
It's good enough for me
I take my solace everywhere i go
Everyting i need is on my back
Only you believe that your belief is all i seek and
Anything we need is with us now
Shine on everywhere
Shine on, just don't you care
Shine on as you go
Shine on
Flying through the air
Lightning in the sky
Flying makes me smile and feel alive
Diamonds from her mouth
Diamonds in her palms
Diamonds from her earth to keep me warm
It's good enough for me
I take my solace everywhere i go
Everything i need is on my back
If only you believe that your belief is all i seek and
Anything we need is with us now
Shine on
The whos and blues and flys remain
As jack knows jill to set a stage
So pause and draw my jar gaze
To face no cause and damn debate
A wise and cries up all disgrace
I'll hit this rhyme and tear a page
Shine on everywhere
Shine on just don't you care
Grab a hold don't let go
Cause this ride doesn't stop for anyone
